James,

Finally got a chance to give this a look. Here are my comments.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) I don't see it here.

Not on this set I don't think. Nelson did some of the lab stuff. I included John and Mary even though I don't know how much cross-pollination there actually was. You can decide for yourself.

Cool I will give it a read as soon as I can. Did Kelsey do any work on this front?

Subject: NJ Water Letters Manuscript

Mark,

Hashed out an ES&T Letters manuscript regarding the NJ water work. Please take a look and let me know what else you would like to include/discuss. Also, one or more of the figures needs to move to the supplemental information.

I need to export the full method files for the LC-MS and Compound Discoverer sequences from the instrument, they will go in the SI when that's the last thing I still need to do, so those spaces are blank right now.
